1. About BluTec.AI

BluTec.AI helps businesses adopt AI-powered automation solutions that work around the clock — our promise is “AI That Never Sleeps.” We are a fast-growing team building the next generation of automation products, and we are looking for a skilled and curious Full Stack Developer to help build the products that power them.

2. Role Overview

As a Full Stack Developer, you will design, build and maintain the web applications and integrations behind BluTec.AI’s automation products. You will work across front-end and back-end, connect AI / LLM services and third-party tools, and ship reliable features that clients can depend on around the clock.

3. Key Responsibilities

- **Application Development:** Build and maintain responsive front-end interfaces and scalable back-end services for BluTec.AI products.
- **API & Integrations:** Design and develop REST APIs and integrate third-party services such as AI / LLM APIs, WhatsApp, CRMs and payment tools.
- **Database Management:** Design efficient database schemas, write optimised queries and keep data secure and consistent.
- **Automation Workflows:** Build and improve automation workflows and agents that deliver on our “AI That Never Sleeps” promise.
- **Code Quality:** Write clean, tested and well-documented code; participate in code reviews and follow version control best practices.
- **Deployment & Monitoring:** Deploy applications on cloud platforms, monitor performance and uptime, and resolve production issues quickly.
- **Debugging & Support:** Investigate and fix bugs, and support the client success team with technical queries and escalations.
- **Collaboration:** Work closely with the product, operations and business teams to turn requirements and client feedback into working features.

4. Required Skills & Competencies

- Strong knowledge of HTML, CSS and JavaScript / TypeScript.
- Hands-on experience with a front-end framework such as React or Next.js.
- Back-end experience with Node.js (Express / NestJS) or Python (Django / FastAPI).
- Working knowledge of SQL and NoSQL databases (PostgreSQL, MySQL, MongoDB).
- Experience building and consuming REST APIs; Git and basic CI/CD understanding.
- Awareness of AI tools / LLMs and APIs (OpenAI, Gemini, etc.).
- Good problem-solving ability, ownership and clear communication.

5. Eligibility

- B.E. / B.Tech / BCA / MCA / B.Sc (IT/CS) or equivalent; other graduates with a strong development portfolio may also apply.
- 1–3 years of relevant experience in full stack or web application development.
- Strong freshers with solid projects or a GitHub portfolio may also apply.
- Willing to work from our Ahmedabad office.

6. Good to Have

- Experience integrating LLM APIs, chatbots or AI agents.
- Experience with automation tools such as n8n, Make or Zapier.
- Familiarity with cloud platforms (AWS / GCP / Azure) and Docker.
- Prior experience in a SaaS or product-based company.
- Fluency in English, Hindi and Gujarati.

7. Compensation (Annual CTC)

Annual CTC: ₹4 LPA.

Note: The CTC mentioned above is indicative. The final CTC offered will be decided based on the candidate's performance in the interview process.

8. Growth Path

Stage	Focus
Today	Feature development, API integrations, bug fixing and deployments
Next	Owning product modules end-to-end, mentoring juniors and designing system architecture
Future	Senior developer / tech lead roles as BluTec.AI grows

9. Hiring Process

Telephonic Round → Technical Interview → Final Interview

10. How to Apply

Interested candidates can send their updated resume to the email below, with the subject line "Application – Full Stack Developer".
